***Allowable Subject Matter***

Claims 6-9, 11-17, 19-20, 23-43 are allowed.

The following is an examiner's statement of reasons for allowance: the independent claims distinguish themselves from the prior art of record by teaching a second network device configured to identify all disk owned by a first network device in response to a failure of the first network device, wherein each network device can read ownership information of each disk, to set a SCSI release tag for each disk owned by the first network device, in response to the failure of the first network device, to transfer the disk to an unowned state, and to remove ownership information stored in the predetermined area of each disk owned by the first network device to complete transferring each disk into the unowned state in combination with all the elements in the claims.

Although prior art systems exist that allow a two part ownership identification, where the first part of this ownership information is written to the predetermined area of each disk and the second part of the ownership information is setting of a SCSI reservation to allow only the disk owner to write to the disk, these prior art do not support the teaching of changing to unowned state to release disk ownership in case of failure. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DJENANE M. BAYARD whose telephone number is (571)272-3878. The examiner can normally be reached on Monday- Friday 5:30 AM- 3:00 PM..
